

2016 HAWAII JUNIOR GOLF ROADMAP

PGA
Aloha Section Foundation

The Aloha Section PGA and the Hawaii State Junior Golf Association are pleased to provide you with your personal copy of the Roadmap to Junior Golf. We understand that parents wishing to get their child involved learning, playing and competing in the game of golf have many questions about how best to get them started.

The purpose of the Roadmap to Junior Golf is to try to make that effort easier. Earlier this year, we sent out surveys to every golf facility and every junior golf association in the state asking them for specific information on what types of programs they offer for juniors to learn, play or compete. The Roadmap to Junior Golf is a compilation of the information that we were able to gather for your easy reference. This information is also available on both the ASPGA and HSJGA websites (www.aspga.com and www.hsjga.org)

There is no right or wrong age to introduce your child to the game. Every child is special and unique. Tiger Woods and Phil Mickelson started as soon as they could hold a club. Annika Sorenstam and other Swedish stars didn't start until they were 10 years old, which is the earliest age that Sweden allows children to participate in their national junior golf instructional programs.

However, it's very important how your child is introduced to the game and by whom. Research from the PGA World Alliance and the PGA Sports Academy makes it clear that first and foremost, golf has to be fun! Research on Long-Term Athlete Development (LTAD) shows us that golf instruction needs to be developmentally age appropriate and effectively engage the motor skills learned from other sports and activities such as running, jumping, throwing and kicking.

Golf is a game for a lifetime and we join you in wishing for your child to have a great first time experience, develop the skills necessary to become a core golfer and ultimately play the game for their entire life.
